Objective

Proactive Software Engineer skilled in Java, automation frameworks, and tool-based development using IntelliJ and VS Code. Leveraging strong QA background to build maintainable, reliable, and testable engineering solutions. Awarded multiple time for exceptional learning speed and contributions to team productivity. Seeking to apply technical depth, ownership, and problem-solving abilities to deliver high-value engineering outcomes.

Experience

Finastra | Software Engineer

Aug 2025 - Present

- Worked on the end-to-end migration of legacy services from Java JDK 1.8 to JDK 21, ensuring compatibility, improved performance, and adoption of modern language features.
- Designed and developed an automated Markdown-based migration utility that enabled QA teams to convert existing test cases to the new architecture without manual effort, reducing migration time and boosting productivity by **~95%**.

Finastra | Associate QA Engineering

Aug 2023 – Aug 2025

- Led test case automation using **FFF Automation Framework** for core payments features including **Pain.013 Drawdown requests** and **CBPR+ 2025 Hybrid payment formats** (Structured, Unstructured, Hybrid).
- Delivered end-to-end testing and automation for **MT, MX, SEPA, NZRTGS, Swift, High/Low-Value payments**, and **GPP-SP (v4.6–4.8)**.
- Translated **user stories** into robust **test scripts** across both **manual and automated** pipelines.
- Collaborated with cross-functional teams to **analyze business processes**, validate payment flows, and ensure compliance with new **Change Requests (CRs)**.
- Worked closely with banking clients like **UniCredit Bank** and **Swedbank**, handling **FFF automation framework**, codebase maintenance, and large-scale regression testing.
- Maintained automation suites across multiple product versions (4.6, 4.7, 4.8), ensuring compatibility and reliability under evolving requirements.

BYJU's | Applicant Trainee (Counsellor)

Aug 2022 – Nov 2022

- Strengthened customer communication, problem-solving, and stakeholder guidance.
- Working as education counsellor to provide proper path to the children and giving them proper picture of his/her future.

SiliconIndia | Technical Process Executive

Sep 2021 – Feb 2022

- Worked on coordination, research, and basic business analysis tasks.
- Communicating with the client and onboarding to the program.

Skills

Domain : GPP-SP(version:4.6,4.7,4.8,etc) Clearing- SWIFT, MT/MX, ISO 20022, CBPR+, MP/HV/LV, SEPA, NZRTGS, GPI • Banking Workflows • High-Value & Low-Value Payments • Digital Journeys • CR Management

Technical : Core Java • SQL • Selenium • Cucumber BDD • TestNG • Maven • Git • Jenkins • Automation Frameworks, Azure, Jira, CI/CD

Soft : Communication • Ownership • Critical Thinking • Stakeholder Management

Education

International Institute of Information Technology, Bengaluru (IIIT- B)

2022-2023

Data Science - MS (Certification)

Sambhram Institute of Technology, Bengaluru

2017-2021

Bachelor of Engineering – Electronics and Communication Engineering

Language

English	-	Professional working proficiency
Hindi	-	Native

Licenses & Certificate

AI-First Product Management	Aug 2025
7 Days Product Challenge	June 2025
DS ACP C44 Certificate - Business Analytics IIIT-B	Aug 2023
SQL Basic – Hacker Rank	Apr 2023
Introduction to Embedded System Design – NPTEL	Apr 2021
Analogue – Texas Instruments	Aug 2019

Honors & Awards

- Recognized twice at Finastra for exceptional learning ability and delivering quick automation solutions.
- Selected in IESE Makethone from all over Karnataka along with 19 other contestants.
- Last year Project was “Android Controlled Hovercraft for Space Mission” and was successfully published in IJSREM.
